# K522

## 📱 Freestanding Android Kiosk

### Plug and Play
Plug and Play is the easiest and most simple way to upload content to the screen. Simply load images and videos onto a USB stick, insert in the display, wait for your content to copy over and then remove. Your images and videos will now play in a continuous loop.

### Network CMS Upgrade
We also offer cloud basis network CMS if required ,and you can run the third party Digital Signage software via the Android PC board too.

### HDMI input support
If you want use your own player box, this android display can meet your demand via the Full HD HDMI signal Input port as well.

---

### Commercial Grade
Designed for use in commercial applications this screen can run 24/7. There are no external buttons or controls to avoid tampering.

### IPS Panel
Superior image quality and colour depth at 178° ultra wide viewing angle in both landscape and portrait orientations.

### Integrated Castors
Designed with brake block castors for easy manoeuvrability, once the kiosk is in the position the wheels can locked.

### LED Backlight
Improves brightness and contrast as well as improving their lifespan and reducing their power consumption. Unlike other forms of light this technology is mercury free; making it even more eco-friendly. The panel and backlight have a lifespan in excess of 60,000 hours.
